Secret Garden of Survival: How to grow a camouflaged food- forest. Rick Austin

Imagine a food garden that you only have to plant once in your life-time, that takes up very little space, that will provide food for you and your family for the next 30 years; that can grow five times more food per square foot than traditional or commercial gardening; and where you never have to weed, never have to use fertilizers and never have to use pesticide-- ever. All diguised as overgrown underbrush, so nobody knows you have food growing there! This book will show you how to do it in one growing season!
