Governmental GAAP consists of all the promulgated accounting principles applicable to financial accounting and reporting. To understand the complexity of the Government Accounting Standards Board (GASB) statements, interpretations, technical bulletins and certain AICPA statements of position, these pronouncements must be analyzed and explained in straightforward language to allow those responsible for the preparation or auditing of financial statements to better understand the accounting principles. This volume should serve as a comprehensive research tool for use by state and local governments and their auditors to guide them through governmental accounting and financial reporting.
