## **Studi sul Cane 2 - Metodologia (Italian Edition)** Mario Canton

Questo testo fa parte di una collana di studi tecnici sul cane dedicato a materie che investono gli aspetti fisici e fisiologici dei cani e delle razze canine.

I temi trattati non riguardano gli aspetti psichici del cane, come la sua etologia, psicologia, comportamento e le materie correlate come l'educazione o l'addestramento.

Non vi sono trattati neppure argomenti legati all'allevamento – come la riproduzione e la crescita – o alla convivenza con il cane domestico – come la salute, l'igiene, l'alimentazione o le cure sanitarie.

La collana si occupa dei cani e delle razze canine sotto l'aspetto strutturale e della loro conformazione in relazione al loro impiego.

I motivi per cui l'uomo ha selezionato così tante razze canine – sfruttando la notevole plasticità genetica del *Canis lupus familiaris* – sono fondamentalmente due: per avere un animale da affezione o per destinarlo a qualche scopo specifico.

Qui si parlerà in particolare dei vari aspetti coinvolti nella seconda delle motivazioni ma anche dei particolari che ne caratterizzano l'aspetto.

In sintesi, si discute di tutto ciò che può essere utile a una valutazione fenotipica dei cani e delle razze canine.

Si ritiene doveroso precisare – infine – che contenuti di ciascun volume possono prevedere digressioni su temi affini il cui svolgimento sia ritenuto utile alla migliore esposizione del tema principale.

Pertanto non sarà improbabile che il Lettore si imbatta in concetti ripresi, sottolineati, riformulati sotto altre angolazioni o ulteriormente approfonditi, con il fine di fornire una loro migliore esposizione.
