Computer-Aided Vaccine Design (Woodhead Publishing Series in Biomedicine) Joo Chuan Tong, Shoba Ranganathan

Computational pre-screening of antigens is now routinely applied to the discovery of vaccine candidates.

Computer-aided vaccine design is a comprehensive introduction to this exciting field of study. The book is intended to be a textbook for researchers and for courses in bioinformatics, as well as a laboratory reference guide. It is written mainly for biologists who want to understand the current methods of computer-aided vaccine design. The contents are designed to help biologists appreciate the underlying concepts and algorithms used, as well as limitations of the methods and strategies for their use. Chapters include: MHC and T cell responses; Immunoglobulins and B cell responses; Scientific publications and databases; Database design; Computational T cell vaccine design; Computational B cell vaccine design; infectious disease informatics; Vaccine safety and quality assessments; and Vaccine adjuvant informatics.

- Essential reading for any biologist who wants to understand methods of computer-aided vaccine design
- Description of available data sources and publicly available software, with detailed analysis of strengths and weaknesses
- Theoretical concepts and practical examples of database design and development for a virtual screening campaign

From reader reviews:

Shari Yung:

The book untitled Computer-Aided Vaccine Design (Woodhead Publishing Series in Biomedicine) is the book that recommended to you you just read. You can see the quality of the reserve content that will be shown to anyone. The language that publisher use to explained their ideas are easily to understand. The article writer was did a lot of study when write the book, so the information that they share to your account is absolutely accurate. You also can get the e-book of Computer-Aided Vaccine Design (Woodhead Publishing Series in Biomedicine) from the publisher to make you more enjoy free time.

Dolly Taylor:

This Computer-Aided Vaccine Design (Woodhead Publishing Series in Biomedicine) is great reserve for you because the content that is full of information for you who have always deal with world and get to make decision every minute. This kind of book reveal it details accurately using great arrange word or we can point out no rambling sentences inside it. So if you are read this hurriedly you can have whole data in it. Doesn't mean it only provides straight forward sentences but tough core information with lovely delivering sentences. Having Computer-Aided Vaccine Design (Woodhead Publishing Series in Biomedicine) in your hand like obtaining the world in your arm, details in it is not ridiculous 1. We can say that no publication that offer you world in ten or fifteen tiny right but this e-book already do that. So , this is good reading book. Hello Mr. and Mrs. active do you still doubt this?

Brenda Rodriguez:

In this era which is the greater man or who has ability to do something more are more treasured than other. Do you want to become considered one of it? It is just simple method to have that. What you should do is just spending your time little but quite enough to experience a look at some books. On the list of books in the top listing in your reading list is actually Computer-Aided Vaccine Design (Woodhead Publishing Series in Biomedicine). This book that is certainly qualified as The Hungry Inclines can get you closer in growing to be precious person. By looking up and review this reserve you can get many advantages.

James Johnson:

You will get this Computer-Aided Vaccine Design (Woodhead Publishing Series in Biomedicine) by visit the bookstore or Mall. Just simply viewing or reviewing it can to be your solve problem if you get difficulties for your knowledge. Kinds of this book are various. Not only by means of written or printed and also can you enjoy this book simply by e-book. In the modern era such as now, you just looking of your mobile phone and searching what your problem. Right now, choose your current ways to get more information about your guide. It is most important to arrange you to ultimately make your knowledge are still revise. Let's try to choose appropriate ways for you.
