Mike Spick

Luftwaffe Fighter Aces Mike Spick

In this exciting book Mike Spick shows how the Luftwaffe's leading fighter pilots were able to outscore their allied counterparts so effectively and completely during the Second World War. When the records of the Jagdflieger pilots became available after the war, they were initially greeted with incredulity – the highest claim was for 352 kills, and more than 100 pilots had recorded more than 100 victories. However postwar research proved that these claims had in fact been made in good faith and confirmation had only been given after rigorous checking.

To discover the secret of this success, aviation history expert Mike Spick examines the exploits of these aces and sets out the context in which it took place. Every major theater is covered in detail including the conditions peculiar to each: climate, relative numerical and qualitative strengths, the presence or absence of radar and other measures, and the relative merits of the planes being flown.

He focuses on the methods and tactics used by individual aces and uses firsthand sources wherever possible to put the reader right alongside the pilot in the cockpit.
