The Philosophy of the Austrian School

Raimondo Cubeddu

The Philosophy of the Austrian School Raimondo Cubeddu

The Austrian School has made some of the most significant contributions to the social sciences in recent times but attempts to understand it have remained locked in a polemical frame. In contrast, *The Philosophy of the Austrian School* presents a philosophically grounded account of the School's methodological, political and economic ideas. Whilst acknowledging important differences between the key figures in the School - Menger, Mises, and Hayek - Raimondo Cubeddu finds that they also have significant things in common. Paramount amongst these are theories of subjective value and notions of spontaneous order, both of which rest on theories of seminal avenues of research in the social sciences and a major reformulation of liberal ideology.
