Moths (Collins New Naturalist Library, Book 90) Mike Majerus

Moths provides a comprehensive account of the diverse natural history of these fascinating and popular insects. This edition is exclusive to newnaturalists.com

Another volume in the popular New Naturalist series, this book is a comprehensive account of the diverse natural history of these fascinating and popular insects.

Michael Majerus, author of the popular New Naturalist Ladybirds, examines all aspects of moths, from their life histories to their role as pests to humans. He covers their reproduction, feeding, evolution, habitats and conservation.

New Naturalist Moths also discusses the enemies of moths, and the ways they have evolved to avoid detection, including camouflage, warning coloration, and mimicry.

This is the definitive text for the study of these insects, written by an established New Naturalist author.
