The God Machine: From Boomerangs to Black Hawks: The Story of the Helicopter James R. Chiles

From transforming the ways of war to offering godlike views of inaccessible spots, revolutionizing rescues worldwide, and providing some of our most-watched TV moments—including the cloud of newscopters that trailed O. J. Simpson's Bronco—the helicopter is far more capable than early inventors expected. Now James Chiles profiles the many *helicoptrians* who contributed to the development of this amazing machine, and pays tribute to the selfless heroism of pilots and crews. A virtual flying lesson and scientific adventure tale, *The God Machine* is more than the history of an invention; it is a journey into the minds of imaginative thinkers and a fascinating look at the ways they changed our world.
