Only seven European monarchies remain intact today; all are constitutional monarchies. Four empires and 16 kingdoms have disappeared in Europe during the last two centuries. The Bourbon kingdom in France vanished first, in 1830; the Greek kingdom most recently, in 1973. This book profiles twenty-one heads of formerly regnant houses of Europe, set in historical perspective, and recounting varied life styles, occupations, and interests. The chapters are arranged in the chronological order in which the kingdoms disappeared. At the end of each chapter is a chart or set of charts depicting the line of succession of the headship of the house.
