## **Outlasting the Gay Revolution** Michael L. Brown

The Houston mayor tried to subpoena sermons against homosexuality. The Mozilla CEO was fired for supporting a bill to uphold traditional marriage. HGTV canceled a new home-improvement show because of the Bible-based views of the show's stars. From redefining marriage to dominating the culture, it appears that there is no stopping the gay activist agenda, but Dr. Brown boldly proclaims that the gay revolution is already a failure, containing within itself the seeds of self-destruction.

In *Outlasting the Gay Revolution*, Dr. Brown clearly spells out eight principles to help Americans with conservative moral values outlast the gay revolution: never compromise your convictions, take the high moral ground, cherish sexual purity, defend natural marriage, celebrate gender distinctions, propagate the truth, turn to God, and refuse to throw in the towel.

Dr. Brown's words will fill every reader with fresh hope and courage, and while it looks like American society will never be the same again, that is not the end of the story. Gay activists will continue to overplay their hand, and most Americans will reject the tactics of these new bullies as our freedoms of religion, speech, and conscience come under increasing attack.

A society based on sexual anarchy, the deconstruction of gender, and the redefinition of marriage cannot survive and thrive. Regardless of what the courts might say (including the Supreme Court), the cultural battle is far from over. The rising attack on our freedoms has only awakened a sleeping giant, in which case the battle has barely begun.
