Heroes for Hire: *Big Risk. Big Reward. No Regrets.*

When High Risk Securities (HRS) agent, Eva Torres, botches an undercover job by failing to rescue both of the kidnap victims she was sent to retrieve, Quinn Blackwood—her former lover and the man who broke her heart—pulls her and one of the victims out of harm's way. As a penalty for her sins, she's offered the dull job of escorting a former bio-chemical warfare scientist to Washington D.C. to reunite with his daughter. Much to her displeasure, the job of monitoring her assignment is given to Quinn.

Quinn isn't thrilled with the situation either. He taught Eva everything he knew about secrets, sex, and lies—but the biggest lie of all was the one he'd told himself: that his missions for HRS were more important than anything, including his relationship with Eva. Because now that they're working together again, the urge to put his hands on her, to feel her beneath him, is killing him.

Things only get worse when their current operation goes wrong, and the scientist they're guarding is kidnapped mid-air. Now, Eva and Quinn have to work together to find him before he is forced to create a monstrous weapon that could destroy entire cities. A hard task made more difficult when they find themselves fighting both the enemy and their building desire for each other. Can they work together for the sake of the mission without reigniting the passion between them—or will passion be the salvation of them all?
