Though You Die (P) (Death and Life Beyond Death) Stanley Drake

Death is a certainty that affects us all, and that every human being has to face. More is known about human death than many people realize. A growing number of people have felt themselves to be on the brink of death, and to have had an out-of-body experience. Some of these people have actually chosen to come back to life after hours on the operating table. The spiritual insight of Rudolf Steiner shows distinct stages in existence after death. Above all there is the central Christian mystery of death, the full significance of which has certainly not yet been grasped by human thinking and which will only reveal itself as that thinking becomes increasingly more spiritual.
